### Celebrating Our Educators: Staff Achievements

At K.C.P. Siddhartha Adarsh Residential Public School, we believe that the heart of a great institution lies in the Caliber of its faculty. Our teachers are not just instructors; they are lifelong learners, researchers, and mentors who consistently strive for excellence beyond the classroom.

#### Pillars of Academic Excellence

Our staff members regularly participate in national and international seminars, ensuring that the latest pedagogical techniques are integrated into our Scholastic programs.

**Our educators have been recognized for :** Digital Integration: Mastering and implementing advanced ICT tools to make learning interactive.

*A teacher affects eternity; he can never tell where his influence stops."* We take immense pride in our faculty's milestones, as their growth is the foundation of our students' success.

#### Recent Highlights

I, M. Latha, am delighted to share that I have successfully completed my Doctor of Philosophy (PhD) in Chemistry. My research work was carried out in the field of analytical chemistry on "Analyst-friendly liquid chromatography methods for the quantification of selected drugs in pure and pharmaceutical formulations."

Pursuing a PhD alongside my teaching responsibilities was both challenging and enriching. With the constant guidance of my research supervisor and the support of my family and colleagues, I was able to achieve this important milestone.

This academic journey has enhanced my knowledge, research skills, and teaching approach. I am committed to applying this experience in my classroom to make learning more effective, engaging, and concept-oriented for my students.

I sincerely thank my institution for its encouragement and support throughout my journey. I look forward to contributing further to the academic excellence of the institution and inspiring my students to achieve their goals.

has successfully completed the online Specialization

## Google AI Essentials

Those who earn the Google AI Essentials Certificate have completed five courses, developed by Google, featuring hands-on practice designed to build AI skills. They are competent in using AI tools responsibly and improving productivity across their workflow.

Amanda Brophy  
Global Director of  
Google Career  
Certificates

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
