Heart to Heart: Our Commitment to Community Service

At **KCP**, we believe that education extends far beyond the classroom walls. Our **Community Service Program** is designed to instill a sense of empathy, social responsibility, and leadership in our students from a young age. By engaging with the world around them, our children learn that even the smallest hands can make a big difference.

Herbal Tulasi Botanical Garden Garden by Class V, VI & VII Children

The Herbal Tulasi Botanical Garden was a wonderful project created by the students of Classes V, VI, and VII. In this garden, we planted many useful medicinal plants, especially **Tulasi (Holy Basil)**, which is known for its great health benefits.

Tulasi is an important plant in Indian culture and is often called the “Queen of Herbs.” It helps in curing common illnesses like cold, cough, and fever. Along with Tulasi, we also planted other herbal plants such as mint, aloe vera, neem, and turmeric.

Through this activity, we learned how plants are important for our health and environment. We also understood the value of traditional medicine and natural remedies. Taking care of the garden taught us responsibility, teamwork, and love for nature.

The garden not only made our school surroundings green and beautiful but also created awareness about the importance of herbal plants. It was a great learning experience for all of us.
